

# TecSec Certification Service

Cyber Essentials, Cyber Essentials PLUS and IASME.

## Cyber Essentials & Cyber Essentials Plus:

Cyber Essentials is a Government-backed, industry-supported scheme to help organisations guard against the most common cyber threats and demonstrate your commitment to cyber security.

As a Cyber Essentials & Cyber Essentials Plus certification body, we offer full consultancy to provide in-depth security knowledge and assessment services that are required to become Cyber Essentials accredited.

TecSec will ensure that you achieve the certification, at which point you will receive your certificate and a badge to display on your website, documentation and emails, and Cyber Liability Insurance of £25,000.

*According to the UK Government, 80% of cyber attacks could be prevented if businesses put simple cyber security controls in place.*

## IASME Governance Standard (with CE/GDPR):

The IASME Governance Standard is a UK government written and approved cyber security standard, an alternative to ISO27001. The IASME Governance Standard is risk-based and includes aspects such as physical security, staff awareness and data backup which allows companies in a supply chain to demonstrate cyber security and implement the necessary steps to protect customer information.

### What do you achieve with the IASME Standard?

- Cyber Essentials
- IASME Governance
- GDPR requirements

As a certification body, TecSec offers a comprehensive consultancy and assessment service to enable our clients to become Cyber Essentials and IASME Governance certified.

## TecSec's Cyber Liability Insurance:

To be applicable for this insurance you have to meet the following requirements:

- You must have a head office domiciled in the UK
- The whole company is included in the scope to be certified
- Your business has a turnover of less than £20m

### TecSec's Commitment to Cyber Essentials & Cyber Security

We aim to provide services that always meet or exceed Cyber Essentials requirements and therefore include annual Cyber Essentials Certification with all our support agreements.
